Americans with Homes in Mexico

An Exclusive MexiPass® Product, providing
Mexican Insurance... the American Way™

Underwritten by:

American Standards of Insurance Coverage

Americans have achieved the highest level of insurance protection in the World. Through many years of evolution, the insurance market in the USA has produced sophisticated insurance products to satisfy the needs of a demanding society of consumers.

When Americans purchase an insurance policy in the USA, they enjoy the peace of mind of a contract with proven and tested forms and conditions that will guarantee the quality protection that they expect for their assets and their liabilities.

Traditional Mexican Insurance Forms

Traditional Mexican Insurance policies are designed to be offered to their domestic market. This has resulted in insurance contracts that, while suitable for the demands of Mexican Nationals, do not offer the sophistication, quality and clarity of coverage and protection that Americans receive in the USA.

So, Americans should not compromise their standards by getting traditional Mexican insurance policies. Americans deserve the level of insurance coverage that is available to them in the USA.

Mexican Insurance...the American Way™

MexiPass® Insurance Programs are underwritten by **AIG Seguros México**, a wholly owned subsidiary of the AIG International Network, to fulfill the need for quality insurance protection for Americans in Mexico.

With **MexiPass®** products you will have the peace of mind of getting the best insurance coverage available for Americans in Mexico.

MexiPass® offers American Standards of Insurance Coverage...for your Personal Autos, Homes, Boats, Umbrella or even Commercial exposures in Mexico...and **MexiPass®** is made available to you, just like your other insurance at home, through the professional advice and services of your trusted Insurance Broker or Agent in the USA, for policies, claims or any other need for insurance services in Mexico!

With MexiPass® you will experience
Mexican Insurance...The American Way!™

The MexiHome® Difference

Attempting a “side by side” comparison between **MexiHome®** and any other traditional insurance policy offered for homes in Mexico is a challenging task: **The differences are just too many and difficult to list!**

The following are just some highlights of why **MexiHome®** is the most suitable solution to protect you as a Home Owner in Mexico:

- **POLICY CONDITIONS:** MexiHome® reads just like the US **HO5** policy, a form that you and your Insurance Advisors can understand and feel very comfortable with.
- **PROPERTY COVERAGES:** With MexiHome® you get **Special (All Risk)** coverage, **Replacement Cost**, **TRUE Theft** coverage for ALL your personal property, **NO “funny exclusions”** and **Deductibles** that are NOT based on “minimum wages”
- **LIABILITY COVERAGE:** Under MexiHome®, your liability exposures are handled just like they would be under a US policy: Your Insurance Company **“will defend you and pay on your behalf”** for ANY claim against you in Mexico, even if groundless!
- **CATASTROPHIC COVERAGES:** If elected, **MexiHome®** will automatically insure **ALL your property exposures** for Catastrophic Losses, **for the same limits and values** insured under the Property and Valuables Objects Sections!

A **MexiHome®** Policy provides you with the proper insurance so you, as an American, shall not have to sacrifice or compromise your standards of protection and settle for inferior coverage for your property and your liabilities as the owner of a home in Mexico.
